

BOREAL / OPERATIONS MANUAL

Current service schedule

Boreal delivery program - revision 3, effective 1 September 2028. This is a fictional operations document. Physical PDF page numbers are the citation reference.

The Boreal service coordinator is Mira Haddad. The depot is Harbor East. Standard deliveries leave the depot at 06:40 each weekday.

Boreal delivery fee is AED 27.50 per parcel. There is an additional AED 4.25 fragile-handling fee for a fragile parcel. Fees exclude tax. This document does not specify a tax rate.

Boreal accepts parcels up to and including 18.5 kg. Parcels heavier than 18.5 kg are rejected. Normal transit takes two business days.

Standard delivery is not available on weekends. An approved emergency shipment may run on a Saturday; emergency service is a separate service.

BOREAL / OPERATIONS MANUAL

Revision history and identifiers

Revision 1, superseded on 1 September 2028: the standard fee was AED 22.00 and the parcel weight limit was 15 kg. Revision 3 governs current shipments.

Boreal Express is a separate service coordinated by Tarek Amin. Boreal Express leaves the North Gate depot at 07:15. These details do not describe the Boreal delivery program.

In this manual, lead can mean the service coordinator or the safety lead. The Boreal safety lead is Hala Saleh.

Shipment BX-47 was sent using the Boreal service. Its route code is R7. It is not a Boreal Express shipment.

Shipment BX-52 uses route R4. BX-52 is a fragile parcel weighing 18.5 kg. The current service schedule contains the rules for its fee and acceptance.

BOREAL / OPERATIONS MANUAL

Routes and eligibility policy

Route R7 terminates at Amber Quay. Route R4 terminates at Stone Pier. Route R9 terminates at Maple Yard.

Drivers may operate a Boreal vehicle only if they hold a current permit and their safety training is complete. Either missing requirement prevents driving.

Completing safety training does not itself issue a permit. A suspended permit is not a current permit.

Noor Karim works as a Boreal driver. Noor Karim completed safety training on 12 August 2028. Noor Karim has a suspended permit.

Salim Rashid holds a current permit. Salim Rashid has not completed safety training. Permit possession does not waive training.

BOREAL / OPERATIONS MANUAL

Operating records

Parcel BX-52 passed its packaging inspection on 3 September 2028. Packaging inspection is separate from driver permit checks.

On 4 September 2028, the Boreal depot logged 64 dispatched parcels and 3 returned parcels. Returned parcels are counted separately from dispatched parcels.

Forty-one of the dispatched parcels used route R7, and twenty-three used route R4. These route counts total sixty-four.

The operations log records dispatch counts only. It provides no measured on-time delivery percentage, fuel economy figure, or customer rating.

For packaging assistance, contact the service coordinator. Vehicle safety questions go to the safety lead. These roles are separate.
